

The Corporate Conjurers

A MAGICAL workshop experience!

Welcome to Corporate Conjurers — the team-building experience you'll actually love! We break the rules of magic to reveal closely guarded secrets that empower you and your team to perform at your very best. Today, you become the magicians. Using the techniques you'll learn—along with props, costumes, and music tracks provided by our professional magicians—your team will create a one-of-a-kind magic show to perform for an audience of your peers. Teams are encouraged to weave their company's products or services into their act, creating a fully customized, unforgettable team-building experience.

"We have done a lot of team events, this one was by far the most enjoyable!"

-Vaswani Manufacturing

The Corporate Conjurers

A MAGICAL workshop experience!

By participating in hands-on activities like magic, your team will strengthen their connections while gaining fresh perspectives they can bring back to their work. Our magical workshop offers an innovative way to energize teams, spark creativity, and foster stronger workplace relationships.

When your group arrives, they'll be welcomed by our magicians. The experience begins with a short performance by your hosts, followed by an overview of the workshop as participants break into teams and prepare to learn their magic trick. Each group is challenged to create a magic act—developing a routine, choosing costumes, incorporating music, rehearsing, and finally presenting their performance. What follows is a truly unique, one-of-a-kind experience that will stay with participants long after the workshop ends.
